Who Says You Can't Be Perfect? Oct 29 2022 "Sometimes we don't believe we can do what God tells us to do or be what God commands us to be simply because we don't understand what He wants. That's what happens for many Christians when they hear that famous command, "Be ye therefore perfect, even as your Father which is in heaven is perfect." Right away we fall back to our personal

human interpretation and decide that “perfect” isn’t really what Jesus meant, because “perfect” represents to us a level and a quality that is way beyond our reach. Then we start feeling guilty about not being able to hit the mark, so we start lowering the target. Now, it’s not perfection God wants but “maturity.” That’s how we fix it up. Jesus didn’t really mean for us to be perfect; He meant for us to be mature. Maturity is a process, a time line along which a person travels to reach a certain condition or state. That’s not what perfection in God is. It’s not a process; it’s a decision. If we make the decision to be perfect as God has commanded, will He not make it possible for us to do that? When has God ever commanded us to do something or be something and not made the way for us to do that and be that? Has He not given the tools and the ministries to help us do that? Do we not have the presence of God, the leadership, teaching, and example of Jesus, the guidance of His Word, and the power of the Holy Spirit to do what God the Father through Jesus has commanded us to do? If God has given us all that and made it possible for us to honor His command and be perfect as He is perfect, who is qualified to say we can’t do it?"

The Boy Who Wasn't And The Girl Who Couldn't Be May 24 2022 Jerome walks over to the giant monitor screen and switches it on before taking a seat on his sofa. A public service announcement displays. He tries changing the channel but all the other channels appear to be off air. A voice speaks. “Good morning, Jerome. An apocalyptic event has befallen planet earth. You are one of six survivors.” Jerome doesn’t know whether he should feel happy that he survived or sad that the rest of humanity has perished. The voice continues. “Food and clothing will be provided for you. Your need for social interaction will be via video-conferencing with the other five survivors.

Unfortunately, you may not meet them in person – the environment outside your apartment is toxic and any attempt to leave will result in your death.” A post-apocalyptic romance, this story finds Jerome settling into his new solitary and regimented life. One day his world is turned upside when he discovers a girl who shouldn’t exist in his kitchen. At first, he is frightened of her but, as he gets to know her, she introduces him to a world of human experiences that he could never have imagined.

Who Says Women Can't Be Doctors? Dec 19 2021 In the 1830s, when a brave and curious girl named Elizabeth Blackwell was growing up, women were supposed to be wives and mothers. Some women could be teachers or seamstresses, but career options were few. Certainly no women were doctors. But Elizabeth refused to accept the common beliefs that women weren't smart enough to be doctors, or that they were too weak for such hard work. And she would not take no for an answer. Although she faced much opposition, she worked hard and finally—when she graduated from medical school and went on to have a brilliant career—proved her detractors wrong. This inspiring story of the first female doctor shows how one strong-willed woman opened the doors for all the female doctors to come. *Who Says Women Can't Be Doctors?* by Tanya Lee Stone is an NPR Best Book of 2013 This title has common core connections.

12,000 Canaries Can't Be Wrong Apr 22 2022 A doctor explains how our environment affects our

health, with a nine-step plan to help with fibromyalgia, IBS, and other conditions. In the old days, canaries were used to detect carbon monoxide in coal mines. Today, countless people suffer due to toxins and chemicals that surround us in the modern world, and Dr. John Molot, over the decades, has seen more than twelve thousand patients with environmentally linked illnesses. In this book, Molot explains how the environment contributes to the development and progression of many common conditions and illnesses, including chronic fatigue syndrome, fibromyalgia and other pain disorders, chemical sensitivity, irritable bowel syndrome, allergies and asthma, diabetes, autistic spectrum disorder, and even obesity—and offers an action plan that will make a positive difference to our health, and to the health of our children. “Compelling and well-written, this is a solidly researched, detailed explanation of the causes and effects of numerous modern health issues . . . It’s possible to skip straight to the treatment plan, but it would be a shame, considering how persuasive, fascinating, and often mind-blowing Molot’s case is.” —Publishers Weekly

John Clare, Politics and Poetry Oct 05 2020 John Clare, *Politics and Poetry* challenges the traditional portrait of 'poor John Clare', the helpless victim of personal and professional circumstance. Clare's career has been presented as a disaster of editorial heavy-handedness, condescension, a poor market, and conservative patronage. Yet Clare was not a passive victim. This study explores the sources of the 'poor Clare' tradition, and recovers Clare's agency, revealing a writer fully engaged in his own professional life and in the social and political questions of the day.
