Celebrating a quarter century of the car that redefined its genre. [apply edits made above] The Mazda MX-5, (known as Miata in North America and Eunos Roadster in Japan), revolutionized the lightweight two-seater roadster market. By taking the front-engine, rear-wheel-drive layout of traditional British and Italian roadsters and combining it with the modern function and reliability for which Japanese cars were justly famous, Mazda created what many consider the perfect sports car. The MX-5 became the best-selling sports car of all time, selling over a million units worldwide. Customers proved that they hadn't lost their desire for simple, lightweight two-seat convertibles; they had simply lost their desire for unreliable, archaic European anachronisms that caught on fire as part of their charm. In 2009, English automotive critic Jeremy Clarkson wrote: "The fact is that if you want a sports car, the MX-5 is perfect. Nothing on the road will give you better value. Nothing will give you so much fun. The only reason I'm giving it five stars is because I can't give it 14." Mazda MX-5 Miata: Twenty-Five Years is a handsomely-illustrated coffee-table book celebrating Mazda's ground-breaking MX-5 Miata, the car that revolutionized the lightweight two-seater roadster market. Rod set out to create a new kind of owner's workshop

manual--friendly, easy to understand, yet more detailed than any other manual: this book is the result, Rod stripped down an MX-5 ('Miata' USA/'Eunos' Japan) in a domestic garage using ordinary tools and, in the process, took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools. "This page-turning combination of business book and adventure saga tells the tale of the Ford Motor Company's" 2016 triumph at Le Mans (The New York Times, "10 New Books We Recommend This Week"). At the 2015 Detroit Auto Show, Ford unveiled a new car—and the automotive world lost its collective mind. This wasn't some new Explorer or Focus. Onto the stage rolled a carbon-fiber GT powered by a six-cylinder Ecoboost engine that churned out over 600 horsepower. It was sexy and jaw dropping, but, more than that, it was a callback to the legendary Ford GT40 Mk IIs that stuck it to Ferrari and finished 1-2-3 at Le Mans in 1966. Detroit was back, and Ford was going back to Le Mans. Matthew DeBord, a veteran auto industry journalist, tells the incredible story of Ford's resurgence in Return to Glory. A decade ago, CEO Alan Mulally took over the iconic company and, thanks to his "One Ford" plan, helped it weather the financial crisis without a government bailout. DeBord revisits the story of the 1960s, details the creation of the new GT, and follows the team through the racing season—from Daytona to Sebring and Laguna Seca in Monterey. Finally, DeBord joins the Ford team in Le Mans in June 2016. This fabled twenty-four-hour endurance race is designed to break cars and drivers, and it was at Le Mans, fifty years after the company's greatest triumph, that Ford's comeback was put to the ultimate test. The Mazda Miata MX-5 has been a popular car among automotive enthusiasts for more than a decade, and hardly a single one of the more than 500,000 sold has not been customized by its owner in some way. This book provides specific how-to instructions through approximately 35 projects that include both maintenance and modification procedures. Each project is treated separately, giving readers very specific information about the commitment in time, tools, money, and talent for each project.

Now a familiar sight on the streets and boulevards of the world, the MX-5 is owned by real enthusiasts, the kind of people who will want to have hands-on involvement with the maintenance and repair of their prized possession. For those enthusiasts, here is what we believe to be the best, easiest to use workshop manual in the world. Author Rod Grainger set out to create a new kind of owner's workshop manual - friendly, easy to understand, easy to use, and yet more detailed than any other manual currently available: two years later, the Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual was the result. Rod, and fellow enthusiasts Pete and Judith, stripped down an MX-5 in an ordinary domestic garage using ordinary tools and, in the process, took over 1,500 step-by-step photographs. The result of all this work is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools. This manual even tells the reader the size of nuts and bolts so they can start work with the right tools and all clearances and torque values are given in the text as the reader needs them. At paragraph level, a unique symbol system provides cross-references or tells the reader that there are helpful associated photos, drawings and tables. The dreaded words "reassembly is a reversal of the dismantling procedure" are banned, and every task, from changing a bulb to rebuilding the gearbox, is described in full. Besides detailed coverage of maintenance and repairs, this manual includes advice on rustproofing, cosmetic tuning and mechanical tuning. Rod's manual was prepared with the assistance of Mazda, and it applies to all 1.6 litre models built between 1989 and 1995. Most of the manual is relevant to later 1.6 litre models, too. Not so long ago religion was a personal matter that was seldom discussed in public. No longer. Today religion is everywhere, from books to movies to television to the internet-to say nothing about politics. Now religion is marketed and advertised like any other product or service. How did this happen? And what does it mean for religion and for our culture? Just as we shop for goods and services, we shop for church. A couple of generations ago Americans remained in the faith they were born into. Today, many Americans change their denomination or religion, sometimes several times. Churches that know how to appeal to those shopping for God are thriving. Think megachurches. Churches that don't know how to do this or don't bother are fading away. Think mainline Protestant churches. Religion is now celebrated and shown off like a fashion accessory. We can wear our religious affiliation like a designer logo. But, says James Twitchell, this isn't because Americans are undergoing another Great Awakening; rather, it's a sign that religion providers-that is, churches-have learned how to market themselves. There is more competition among churches

than ever in our history. Filling the pew is an exercise in salesmanship, and as with any marketing campaign, it requires establishing a brand identity. Successful pastors ("pastorpreneurs," Twitchell calls them) know how to speak the language of Madison Avenue as well as the language of the Bible. In this witty, engaging book, Twitchell describes his own experiences trying out different churches to discover who knows how to "do church" well. He takes readers into the land of karaoke Christianity, where old-style contemplative sedate religion has been transformed into a public, interactive event with giant-screen televisions, generic iconography (when there is any at all), and ample parking. Rarely has America's religious culture been examined so perceptively and so entertainingly. Shopping for God does for religion what Fast Food Nation has done for food. If you think marketing is nothing but advertising and promotion, Chip Conley and Eric Friedenwald-Fishman will set you straight in this remarkably concise and practical little book. For example, consider this astonishing fact (plucked from the introduction): "With annual sales of more than \$125 million, [Chip Conley's company] Joie de Vivre spends less than \$50,000 annually on traditional advertising yet has a greater market share than its hotel competitors." ....As you might guess, this book does not advocate your grandfather's concept of marketing. Marketing That Matters sets forth a thoroughly contemporary approach to marketing that is fully in tune with today's intensely competitive and fast-changing business environment an approach that will help you position yourself and your company for continuing success in the challenging years ahead. The numerous examples in this book, drawn from the collective experience of companies affiliated with Social Venture Network (SVN) and from the authors' nearly four decades of experience with their own and other firms, illustrate how values-driven companies can succeed in the marketplace while helping make the world better. As Chip and Eric show so clearly, marketing truly succeeds only when it is an authentic expression of a company's mission and when it embodies the company's brand, expressing what they call "the three Vs: the value, values, and voice of an organization." If you're looking for insight and practical advice about how to navigate the swirling waters at the intersection of market and meaning, you'll find them in this book. This pint-sized volume contains a gallon's worth of wisdom. You'll want to keep it on your desk and refer to it again and again.
