The Posing of Questions Oct 28 2019 This book is a study in the logic of questions (sometimes called erotetic logic). The central topics in erotetic logic have been the structure of questions and the question-answer relationship. This book doesn't neglect these problems, but much of it is focussed on other issues. The main subject is the logical analysis of certain relations between questions and the contexts of their appearance. And our aim is to elaborate the conceptual apparatus of the inferential approach to the logic of questions. Questions are asked for many reasons and for different purposes. Yet, before a question is asked or posed, a questioner must arrive at it. In many cases arriving at a question resembles coming to a conclusion: there are some premises involved and some inferential thought processes take place. If we agree that a conclusion need not be "conclusive", we may say that sometimes questions

can play the role of conclusions. But questions can also perform the role of premises: we often pass from some "initial" question to another question. In other words, there are inferential thought processes - we shall call them erotetic inferences - in which questions play the roles of conclusions or conclusions and premises. The inferential approach to the logic of questions focusses its attention on the analysis of erotetic inferences. This book consists of eight chapters.

Philo of Alexandria - An Exegete for His Time Nov 21 2021 Philo's writings are a comprehensive and important source of late Second Temple Judaism, and illuminate the context of First Century Christianity. However, today many find them to be rather inaccessible. Professor Borgen's book provides a key to Philo's fascinating world and makes a better understanding and appreciation possible of this great Jewish exegete and philosopher of Antiquity.

How to Live Feb 10 2021 Not quite non-fiction, not quite self-help. It's a work of art about conflicting philosophies. Many books believe they know how you should live. But each book disagrees with the next. In "How to Live", each chapter believes it knows how you should live. And each chapter disagrees with the next. One chapter makes a compelling argument for why you should be completely independent, keeping all options open. The next chapter argues why you should commit to one career, one place, and one person. One chapter persuades you to be fully present, and experience each moment. The next, to delay gratification and invest for the future. Which one is right? Which does the author believe? All of them. It's a philosophy of conflicting philosophies. A very unique

and thought-provoking book. Meant for reflection as much as instruction. 113 incredibly succinct pages of profound insights. No philosophers are quoted. No -isms are named. Only actionable directives. The end result feels more like poetry than prose.

Steve Emanuel's First Year Questions and Answers Sep 27 2019 Steve Emanuel's First Year Questions and Answers consists of 1,144 short-answer questions, covering the six subjects usually taken by first year law students. Each question gives you a fact pattern, and then asks you to make a conclusion, usually a yes/no conclusion (e.g., "Is there an enforceable contract?"). Within each subject, the questions are arranged in approximately the order that the topics they cover occur in the Emanuel Law Outlines for that subject. Thus the Civil Procedure questions begin with questions involving personal jurisdiction, proceed to subject matter jurisdiction, then to pleading, and so on.

What is Rhetoric? Dec 23 2021 This book offers a new approach to the principles and functioning of rhetoric. In everyday life, we often debate issues or simply discuss questions. Rhetoric is the way in which we answer questions in an interpersonal context, when we want to have an effect on those with whom we are communicating. They can be convinced or charmed, persuaded or influenced, and the language used can range from reasoning to the sharing of narratives, literary or otherwise. *What is Rhetoric?* provides a breakthrough in the field, offering a systematic and unified view of the topic. The book combines the social aspects of rhetoric, such as the negotiation of distance between speakers, with the theory of emotions. All the principal authors from Plato and Aristotle to contemporary theorists are integrated into Michel Meyer's 'problematological' conception of rhetoric, based on the primacy of questioning and answering in language and thought.
