This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Each year approximately 250,000 Americans undergo total-knee-replacement surgery (also known as a total knee arthroplasty, or TKA). Every year, a million more consider it. If you are considering or have had a total knee replacement you should read this book. It will tell you everything you need to know to prepare for and recover from the surgery, and to get the most out of your new knee. The success of a total knee replacement depends on rehabilitating the knee after the operation -- in fact, the rehab is as important as the surgery itself. This book maps out the road to recovery with week-by-week exercises for a full year. The authors, a surgeon and physical therapist who have both been orthopedic patients, provide practical tips, success stories and personal insights into the recovery process. Most people, even surgeons, don't realize how dramatically arthritis can change a person's life. Author Jeff Falkel, Ph.D., was one of these people. He could not stand or walk without crippling pain. Body transformations are the most sought-after type of training in the fitness world. Warren Edward Armstrong Jabali was my hero. In the hearts of his family and friends across the country, he was a superstar. Known for his basketball feats at Central High School (1962-1964), Wichita State University (1964-1968), and in the American Basketball Association (ABA) 1968-1976, this book presents an uplifting story of how a man, labeled as "one of the two meanest men in the ABA," overcame the vilification of his character. By positively channeling his energy on the educational empowerment of African American youth, he became an extraordinary role model and father figure for many in South Florida. Divided into two sections, the first part of the book is Warren's incomplete manuscript. He described the wide ranging cultural attitudes, political environment and social conditions which motivated his actions and profoundly affected his basketball career. It is supplemented by newspaper articles and interviews in which he discussed various controversial topics and elaborated on the skills and legacies of his contemporaries. The last half is written by the "love of his life." A very complex and private person, the section illustrates multiple aspects of his personality which portray an intimate understanding of him that only someone he cherished could ever reveal. This narrative validates the strength of his character as he boldly faced personal challenges. It demonstrates his unwavering commitment to education as he persevered in his lifelong pursuit for equality. Additionally, it highlights how benevolent his interpersonal relationships were as he journeyed along the road less traveled This is a directory of companies that grant franchises with detailed information for each listed franchise.
