Sibert Honor winner Sy Montgomery explores how tiny fish living in the Amazon river, called piabas, can help preserve not only the rainforest and its often misunderstood inhabitants, but the fate of our entire environment. This installment in the Scientists in the Field series includes gorgeous full-color photography. 1837: the Victorian Era approaches and the golden age of piracy draws to a close. Worried that his pirates are growing bored of roaring, running people through, and sitting about on tropical beaches, the Pirate Captain decides it's time they had an

adventure. A chance encounter with the young Charles Darwin leads the Captain and his crew to the fog-filled streets of London, a grisly murder and a diabolical Bishop ... "Smart girls, friendship, and fun: a winning combination." —Kirkus "A wonderful book." —School Library Journal Cece loves science and adventure! In this STEM-themed Girls in Science picture book, Cece and her Adventure Girls troop use science, technology, engineering, and math to solve problems and earn their camping pin. Illustrated by New York Times–bestseller Vashti Harrison, Cece Loves Science and Adventure is perfect for fans of Ada Twist, Scientist and anyone who enjoys asking questions and figuring out how things work. Cece loves being an Adventure Girl almost as much as she loves science, which is why she can't wait for her troop's camping trip. Nature is full of science for Cece to explore! Along with her friends, her mom, and her dog, Einstein, Cece learns how to pitch a tent, set up a campsite, and document landmarks on the trail. Then thunder booms in the distance! Working together, the girls use meteorology and math to determine the location of the storm; engineering to build a shelter; and technology and math to calculate the length of the trek back to the campsite. After all that teamwork, Cece's mom gives them an Adventure Girl surprise! Illustrated by Vashti Harrison, author and illustrator of the New York Times–bestselling Little Leaders: Bold Women in Black History, Cece Loves Science and Adventure is just right for curious kids and anyone who loves to explore the great outdoors. Includes a glossary. I've been thinking of an adventure more along the lines of pearl-smuggling in the South Seas or discovering a lost continent. We're being sponsored, you see, so it's got to be full of glamorous locations and scantily clad women. He's conquered the seven seas, hunted Moby Dick and rescued Charles Darwin; now the

Pirate Captain and his crew are off on another adventure. Their mission this time: to sail to London, buy a new suit for the Pirate Captain and maybe have some sort of adventure in a barnyard. But nothing is ever straightforward for the hapless pirates. In no time at all, the Pirate Captain is incarcerated at Scotland Yard in a case of mistaken identity. Discovering that his doppelganger is none other than Karl Marx, the Captain and his crew are unwittingly caught up in a sinister plot involving communists, enormous beards and a quest to discover whether ham might really be the opium of the people. The Art of Monsters, Inc. opens the door into Pixar's colorful archives of concept art and to the endearing story of Monsters, Inc. Since the very first bedtime, children around the world have known that once their parents tuck them into bed and shut off the light, monsters lie waiting behind closet doors, ready to emerge. But what they don't realize is that these monsters scare children because they have to. It's their job. This superb film from Pixar Studios, the people who brought you Toy Story, A Bug's Life, and Toy Story 2, reveals the truth about monsters with the brilliant techniques that have earned them their reputation as a groundbreaking animation studio. This incredible body of artwork was commissioned from the top artists, illustrators, and animators in the industry and from it the ultimate visual approach of the film was defined. From sketches scribbled on napkins and quickly inked marker drawings, to finished oil paintings and fabulous pastel color scripts, this behind-the-scenes artwork reveals the elaborate creative process behind a blockbuster film. The World of Discovery Collection is a specially curated selection of children's books that focus on discovering Asia and discovering STEM (Science, Technology, Engineering and Maths). Under the guidance of Dr Ruth Y L Wong, these books aim to promote reading for pleasure, while exciting kids through discovery. With 51 books in this inaugural batch, and with more to come, the books are divided into three levels depending on the child's reading ability: A (Achieving), B (Blooming) and C (Confident). Level B Set 2 features nine titles, exploring themes of science, imagination, nature and global stories. Intended outcomes of Level B include teaching children to be able to: - follow a

text when it is being read aloud - turn the page at the right time - sound out at least 70% of the words in the book - read simple sentences - enjoy being read to Each book includes a story-based activity at the end of the books to help parents and educators get children to engage with the story. Includes these 9 titles: Brave Beachley (Sisu Girls series) Brave Beachley tells the tale of Australian Layne Beachley and how she chased her dream to become a world champion surfer. Because tough times are sure to happen. They are part and parcel of life's plan. But don't let those tough times stop you, pick yourself up and say: 'I CAN!' Fearless Frosty (Sisu Girls series) Fearless Frosty tells the story of New Zealander Anna Frost and how she chased her dream to become a professional mountain runner. Whatever it is, go after it. Find the thing that makes you fly! Because one thing is for certain: You'll never know unless you try. Mighty Mira (Sisu Girls series) Mighty Mira tells the tale of Nepali Mira Rai and how she chased her dream to become a professional mountain runner. The moral of my story; Live the moment, live the now. Don't worry if you don't know the path, Have courage, and you'll discover how. Panjang: The Tall Boy Who Became Prime Minister Panjang is the tallest kid around. He hates standing out, but little does he know, he's on his way to greater heights ... This book tells the childhood story of Singapore's second prime minister, Goh Chok Tong, and how he conquered his self-consciousness to become a leader. This tall tale inspires children to embrace the things that make them different. Tun Dr Siti Hasmah Mohd Ali: The Accidental Doctor Meet Siti Hasmah, a little girl, who wanted to be a journalist, in a period when not every girl was sent to school. Find out how she coped when World War II struck. Walk in her footsteps as she graduated from university and went on to save the lives of many Malaysian women and children. See what she finally ended up being. Meme the Monkey: Wins in Life We all like to win and do well. But what does it really mean to win in life? Meme the Monkey wants to do well and tries her very best to. But she soon learns that doing well in life is not just about scoring high marks in her exams - there are other more important things. I Really, Really Don't Like Water! (Wow Wild Asia series) Boleh the otter

pup really, really does not like water. Mama starts him on swimming lessons. What should he do? Can he ever get used to the water? Read Boleh's splashy tale of learning new skills and the good surprise that comes with it. I Really, Really Don't Like Heights! (Wow Wild Asia series) Sayang the Leopard cub really, really does not like heights. When Sayang playfully chases after the bird, he ends too high up in a tree. Can Bear, Monkey and Squirrel help Sayang find his footing and courage to climb down the tree? I Really, Really Don't Like Bees! (Wow Wild Asia series) Tahan the bear cub really, really does not like bees. Tahan is nervous when he joins Papa for his first trip to a beehive. Will he succeed in collecting any honey? Can he ever put up with buzzing, swarming bees? It's come to my attention that the old girl's a little bit past her best. And I can hardly maintain my reputation as a terror of the high seas with bits falling off the boat all the time, can I? The Pirate Captain is in trouble. Eager to appease his crew with a boat that has a functioning mast, fewer holes and cannons that actually fire, he splashes out on the fancy new Lovely Emma, spending six thousand doubloons he doesn't have. Finding themselves in debt to the beautiful but deadly Cutlass Liz - or the butcher of Barbados, as she's otherwise known - the pirates need to raise some money fast. In a desperate race against time our heroes embark on an adventure that will take them from the shores of Nantucket to the bright lights of Las Vegas, to the ends of the earth in search of a mythical white whale, and even, perhaps, into the dark depths of madness. But hopefully they'll be home in time for tea. National Book Award Finalist: A biologist's "thoroughly enjoyable" account of the expeditions that unearthed the history of life on our planet (Publishers Weekly). Not so long ago, most of our world was an unexplored wilderness. Our sense of its age was vague and vastly off the mark, and much of the knowledge of our own species' history was a set of fantastic myths and fairy tales. But scientists were about to embark on an amazing new era of understanding. From the New York Times bestselling author of *The Big Picture*, this book leads us on a rousing voyage that recounts the most important discoveries in two centuries of natural history: from Darwin's trip around the

world to Charles Walcott's discovery of pre-Cambrian life in the Grand Canyon; from Louis and Mary Leakey's investigation of our deepest past in East Africa to the trailblazers in modern laboratories who have located a time clock in our DNA. Filled with the same sense of adventure that spurred on these extraordinary men and women, *Remarkable Creatures* is a "stirring introduction to the wonder of evolutionary biology" (Kirkus Reviews). "Charming and enlightening." —San Francisco Chronicle "As fast-paced as a detective story." —Nature This compelling book explores the challenges to theory, politics, and human identity that we face on the threshold of the third millennium. It follows on the successor of Best and Kellner's two previous books, *Postmodern Theory*, acclaimed as the best critical introduction to the field - and *The Postmodern Turn*, which provides a powerful mapping of postmodern developments in the arts, politics, science, and theory. In *The Postmodern Adventure*, Best and Kellner analyze a broad array of literary, cultural, and political phenomena from fiction, film, science, and the Internet, to globalization and the rise of a transnational image culture. Sunday Times bestseller *We have a lifetime's association with our bodies*, but for many of us they remain uncharted territory. In *Adventures in Human Being*, Gavin Francis leads the reader on a journey through health and illness, offering insights on everything from the ribbed surface of the brain to the secret workings of the heart and the womb; from the pulse of life at the wrist to the unique engineering of the foot. Drawing on his own experiences as a doctor and GP, he blends first-hand case studies with reflections on the way the body has been imagined and portrayed over the millennia. If the body is a foreign country, then to practise medicine is to explore new territory: Francis leads the reader on an adventure through what it means to be human. Both a user's guide to the body and a celebration of its elegance, this book will transform the way you think about being alive, whether in sickness or in health. Published in association with the Wellcome Collection. WELLCOME COLLECTION Wellcome Collection is a free museum and library that aims to challenge how we think and feel about health.

Inspired by the medical objects and curiosities collected by Henry Wellcome, it connects science, medicine, life and art. Wellcome Collection exhibitions, events and books explore a diverse range of subjects, including consciousness, forensic medicine, emotions, sexology, identity and death. Wellcome Collection is part of Wellcome, a global charitable foundation that exists to improve health for everyone by helping great ideas to thrive, funding over 14,000 researchers and projects in more than 70 countries.

wellcomecollection.org A science and nature biography of Cynthia Moss, the elephant expert, by the author of Caldecott Honor book *One Cool Friend* Cynthia Moss was never afraid of BIG things. As a kid, she loved to ride through the countryside on her tall horse. She loved to visit faraway places. And she especially loved to learn about nature and the world around her. So when Cynthia traveled to Africa and met the world's most ENORMOUS land animal, the African elephant, at Amboseli National Park in Kenya, she knew she had found her life's work. Cynthia has spent years learning everything she can about elephants and sharing these fascinating creatures with the world. She is a scientist, nature photographer, and animal-rights activist, fighting against the ivory poachers who kill so many elephants for their tusks. This lyrical and accessible picture book gives kids a glimpse of what scientists do in the real world and inspires them to dream of accomplishing BIG things.

From the author of *The Pirates! In An Adventure with Scientists*, now a major motion picture from Aardman Animations ad Sony Pictures The reader must find the mad scientist, Dr. XXX, and stop him from smuggling his secret formula for sludge--a tasteless substance that will turn anyone who eats it into a zombie--into school cafeterias around the world. Original.

NATIONAL BESTSELLER • The acclaimed author of *Founding Gardeners* reveals the forgotten life of Alexander von Humboldt, the visionary German naturalist whose ideas changed the way we see the natural world—and in the process created modern environmentalism. "Vivid and exciting.... Wulf's pulsating account brings this dazzling figure back into a dazzling, much-deserved focus." —The Boston Globe Alexander von Humboldt

(1769-1859) was the most famous scientist of his age, a visionary German naturalist and polymath whose discoveries forever changed the way we understand the natural world. Among his most revolutionary ideas was a radical conception of nature as a complex and interconnected global force that does not exist for the use of humankind alone. In North America, Humboldt's name still graces towns, counties, parks, bays, lakes, mountains, and a river. And yet the man has been all but forgotten. In this illuminating biography, Andrea Wulf brings Humboldt's extraordinary life back into focus: his prediction of human-induced climate change; his daring expeditions to the highest peaks of South America and to the anthrax-infected steppes of Siberia; his relationships with iconic figures, including Simón Bolívar and Thomas Jefferson; and the lasting influence of his writings on Darwin, Wordsworth, Goethe, Muir, Thoreau, and many others. Brilliantly researched and stunningly written, *The Invention of Nature* reveals the myriad ways in which Humboldt's ideas form the foundation of modern environmentalism—and reminds us why they are as prescient and vital as ever. The Mad Scientists of Mammoth Falls embark on an international adventure involving jewel thieves, a long lost diamond, a zany professor, and his two students. The first book in the epic saga of humankind's war of transcendence An examination of the most powerful storms on Earth includes a look at VORTEX, the leading tornado-monitoring project, shares the stories of tornado chasers, and discusses the film by Steven Spielberg and Michael Crichton *Two dogs, Snitter and Rowf*, escape from a research laboratory in the Lake District where it is wrongly supposed they have been purposely infected with a deadly virus and now pose a dangerous threat to the human population. As the authorities give chase, the two friends make their way through the hills and across the moors, along the way learning to survive on their wits and finding friendship and help from a fox they encounter. They dream of finding their original owners and a safe haven - but the hunt is on. A lyrical and engrossing tale, *The Plague Dogs* is a remarkable journey into the hearts and minds of two canine heroes. For the first time in illustrated form, this comprehensive history of

sc-fi traces its origins and charts its history from its humble beginnings to its respected status today. We don't see them on TV, in textbooks or in newspapers, and most of us can't name a single one. But there are thousands of women scientists in India, who perform experiments in laboratories, peer through powerful telescopes and camp out in harsh and extreme conditions. This unique book presents the stories of thirty-one of these trailblazing women who work in a diverse array of fields, from environmental biotechnology to particle physics, palaeobiology to astrophysics. Through their research, they uncover the mysteries of the universe, find more sustainable ways of living, cure life-threatening diseases and study animals and plants that are long gone. Find out what drew them to science, read about how they deal with the difficulties and pressures of their work, and learn how they push the boundaries of human knowledge further and further every day. Join the LEGO(R) minifigures as they explore the science of nearly everything! This kid-friendly book is bursting with photos, fun facts, and lots of humor. Includes a buildable scientist minifigure! Did you know that the blue whale could blow up 1,250 balloons in a single breath? Or that the Earth's core is as hot as the surface of the sun? Including information about almost every scientific topic in the universe, readers will find out everything they ever wanted to know about fascinating animals, electricity, energy, weather, our galaxy, technology of tomorrow, and so much more. They'll even meet real-life scientists and read all about their exciting work. Complete with hundreds of stunning photographs, fun facts, mini comics, and building ideas, LEGO Science is the perfect book for young readers curious about science. Includes a buildable scientist minifigure! The LEGO(R) nonfiction series is exceptional as it combines the world's most powerful toy brand with the most trusted name in children's publishing. *The Pirates! In an Adventure with Scientists* Not since *Moby-Dick*...No, not since *Treasure Island*...Actually, not since *Jonah and the Whale* has there been a sea saga to rival *The Pirates! In an Adventure with Scientists*, featuring the greatest sea-faring hero of all time, the immortal Pirate Captain, who, although he lives for months at a time at sea, somehow manages to keep his beard silky

and in good condition. Worried that his pirates are growing bored with a life of winking at pretty native ladies and trying to stick enough jellyfish together to make a bouncy castle, the Pirate Captain decides it's high time to spearhead an adventure. While searching for some major pirate booty, he mistakenly attacks the young Charles Darwin's *Beagle* and then leads his ragtag crew from the exotic Galapagos Islands to the fog-filled streets of Victorian London. There they encounter grisly murder, vanishing ladies, radioactive elephants, and the Holy Ghost himself. And that's not even the half of it. *The Pirates! In an Adventure with Ahab* Fresh from their mishaps with Charles Darwin and the evil Bishop of Oxford, the Pirates set sail in a bouncy new vessel—purchased on credit. In order to repay his debts, The Pirate Captain is determined to capture the enigmatic White Whale, hunted by the notoriously moody Ahab, who has promised a reward. Chaos ensues, featuring the lascivious Cutlass Liz, the world's most dangerous mosquito, an excerpt from the Pirate Captain's novel in progress (a bodice ripper, of course), whale ventriloquism, practical lessons in whale painting, a shanty-singing contest in a Las Vegas casino, and a dramatic climax in which the Pirate Captain's Prize Ham saves the day! Move over, Herman Melville. Experience the first "outrageous adventure with a wild dose of the supernatural" (Clive Cussler, New York Times bestselling author) in the New York Times bestselling *Atlantis* trilogy, following archeologist Conrad Yeats, his father, and linguist Serena Serghetti as they search for the lost city of Atlantis. During a top secret dig in Antarctica, the United States government discovers a stunning and ancient secret: the legendary lost city of Atlantis. Dr. Conrad Yeats, the foremost authority on megalithic architecture, is brought in along with his estranged father, General Griffin Yeats, and his former lover, the linguist Serena Serghetti, to explore this astonishing civilization hidden beneath the ice. But their investigation uncovers something shocking that threatens the very existence of humanity and together, they are thrust into a deadly race against the apocalypse. "Raising Atlantis grabs hold of you from the first page and pulls you into an astonishing world of scientific fact and fiction, suspense, and good

old-fashioned adventure” (Nelson DeMille, New York Times bestselling author). Visit the official Raising Atlantis website at RaisingAtlantis.com to unlock lost chapters and download free ebooks featuring Conrad Yeats and Serena Serghetti. See the iconic, energetic art of Aardman Animations like never before! The Art of Aardman takes readers on an unforgettable, behind-the-scenes journey through the studio's archives. This collection features original character sketches and never-before-seen concept art, offering a unique look inside the studio that created Chicken Run, Morph, and, of course, Wallace & Gromit. Kicking things off with forewords from founders Peter Lord and David Sproxton, this celebration of all-things Aardman is a must-have for all animation fans. “In the end, these people helped me realize that Boundless was more than a job; it was metaphor for life. It came down to one simple, daily decision—do I stand still or move forward?”

Filming the hit television series Boundless, Simon Donato has raced thousands human-powered kilometres across the globe—from the frigid tundra of Iceland to the searing heat of the Sahara, journeys that strip away the regular trappings of life and pit us against ourselves and the natural world. There are no modern conveniences to lean on as crutches, and every metre gained is earned through both physical and mental effort. In his compelling first book, Donato details the quest for adventure and the opportunities to test ourselves in a very primal way—in ways that we aren't able to in our lives very much anymore. Describing the key moments and adventures that put him on the path to Boundless, Simon takes you on an adventure-filled journey around the globe and shows how you can apply his lessons and experience to your everyday life. A San Francisco Chronicle Best Book of the Year: “Intelligent and impassioned, Citizen Scientist is essential reading for anyone interested in the natural world.” A Nautilus Award Winner in Ecology and Environment Award-winning writer Mary Ellen Hannibal has long reported on scientists' efforts to protect vanishing species. But it was only through citizen science that she found she could take action herself. As she wades into tide pools, spots hawks, and scours mountains, she discovers the power of the heroic

volunteers who are helping scientists measure—and even slow—today's unprecedented mass extinction. Citizen science may be the future of large-scale field research—and “might be our last, best hope for solving myriad environmental predicaments” (Library Journal). our planet's last, best hope. “Inspired by the likes of marine biologist Ed Ricketts, [Hannibal] records starfish die-offs, meets the geeks who track deforestation, and plans a web-based supercommunity of citizen scientists to counter what many are calling the sixth great extinction. A cogent call to action.” —Nature “Hannibal's use of details verges on the sublime.” —East Hampton Star “[A] celebration of nonexperts' contributions to science.” —Scientific American

Rick and Scotty search for a sacred relic in the Philippines -- but danger lurks around every turn! (Volume 10 in the Rick Brant series.) Ms. Adventure tells the story of Jess Phoenix's extraordinary career in geology—and how the barriers she faced along the way inspired her to advocate for more diversity in science. Since she sailed away after the pirates' adventure with scientists, the pirates' boat has been somewhat battered by the rigours of ocean life. Her mast keeps collapsing, her wheel has broken off and several of the pirates have ended up with nasty splinters. Realising his paintings can only cover up the leaks for so long, the Pirate Captain decides he must pay a visit to Cutlass Liz's boat yard (Liz is 'famed for having the best face on the entire eastern seaboard') and trade his ship in for a newer model. Dazzled by the swan-lined curtains and tennis courts of 'The Lovely Emma', and frankly, by Cutlass Liz's lovely face, the Pirate Captain makes a rash decision and finds himself with a debt of six thousand doubloons, and very little time in which to pay it before the sands of Liz's hourglass run out and he and his crew are gutted like fish. While working with a famous scientist in Greenland, four teenage scientists stumble upon a mysterious find that transports them to the Valley of the Runes where they encounter marooned Vikings, Arctic hurricanes, and other dangerous adventures. Put your chemistry to the test when you take over a chocolate factory. Get to grips with biology as you venture through the Amazon Rainforest. Swat up on astronomy as you navigate through

“Jon Levy is what happens when you mix a behavioral scientist like Robert Cialdini with Indiana Jones.” —Lewis Howes, New York Times bestselling author of *The School of Greatness*

Jon Levy used to be a nerd. Now, he runs with the bulls in Pamplona, battles Kiefer Sutherland in Jenga, and crashes million-dollar weddings. How did he do it? *The E.P.I.C. Model of Adventure*, a breakthrough four-step process (Establish, Push Boundaries, Increase, Continue) for building the perfect adventure, from picking the right team, to choosing the right mission, and taking the right risks—with plenty of stories from his own exploits to show you how it’s done. With the mold-breaking brilliance of Timothy Ferriss’s *The 4-Hour Work Week*, and the geeky enthusiasm of a TED Talk, this book is your ticket to the next level. You’ll learn plenty, but the first lesson is easy: nothing good happens after 2 AM—except the most EPIC experiences of our lives. This book examines the relationship that exists between fantasy cinema and the medium of animation. Animation has played a key role in defining our collective expectations and experiences of fantasy cinema, just as fantasy storytelling has often served as inspiration for our most popular animated film

and television. Bringing together contributions from world-renowned film and media scholars, *Fantasy/Animation* considers the various historical, theoretical, and cultural ramifications of the animated fantasy film. This collection provides a range of chapters on subjects including Disney, Pixar, and Studio Ghibli, filmmakers such as Ralph Bakshi and James Cameron, and on film and television franchises such as Dreamworks’ *How To Train Your Dragon* (2010-) and HBO’s *Game of Thrones* (2011-). To tie in with the DVD release of *The Pirates! in an Adventure with Scientists*, this exclusive, fully illustrated guide takes us behind the scenes to discover how 2012’s hottest film was made. Packed with previously unseen visual material, including storyboards and designs for sets and key characters, this highly collectible full-colour book charts the journey from paper to screen: a five-year process for a crew of just 320 people - requiring 3,000 storyboard images, 19,456 square metres of foam board and 893 different mouths for the Pirate Captain alone. Also included are rare interviews with the directors, producers and key members of the production team, giving insight into the creative and technical challenges of a project of this size and ambition. *The Making of The Pirates!* is a must-have for the many fans of the film, and for anyone interested in the methods, passions and eccentricities of Aardman, this most quintessentially British animation studio. Eric Yang is thirty two, a combat veteran of the Saudi war, and a student at Denver University (DU). His goal was to reintegrate back into society. His service freed him from the mistakes of his past. His dedication pushed him to achieve more from life even with his disabilities. While not all scars from war are visible, Eric was given a cybernetic arm that even scientists in 2032 considered futuristic. An isolated semester at DU is disrupted by his doctor’s dire warning. The asteroid barreling toward Earth is an alien spacecraft with hostile intent. Eric scrambles to plan, consolidate, and form his team while the rest of an oblivious society is prevented from vital information.
