Blood Ambush Mar 03 2020 Caught In A Trap For Darlene Roberts, a quiet drive home from work turned out to be the end of the road when a stranded motorist flagged her down. As soon as she stopped, Darlene was forcibly dragged from her car and viciously thrown to the ground, bound with cords and tightly gagged. A second attacker stepped into the scene, a woman in a hood and a mask. ... Hunted Like An Animal In the ensuing struggle, the woman's mask slipped off, revealing the face of Darlene's husband's ex-wife, Barbara Ann Roberts. Darlene broke away, running for her life. The couple pursued her across a field until they found her hiding in the grass. A shotgun was aimed--and fired--point blank. Later, Darlene was discovered floating in a pond. . . Dead In The Water Who fired the fatal shot? The bitter ex-wife? Or her lover and accomplice, millionaire neurosurgeon Dr. Robert Schiess III? Only one of them would be convicted of murder in this disturbingly twisted tale of lovers, cheaters, and killers in a small Alabama town. . . With 16 Pages of Revealing Photos

**The Valley of the Shadow** Jul 07 2020 The title of this book reflects a time in my life when I was surrounded by death and the possibility of not making the return journey home from combat in Iraq in 2005-2006. I felt a deep obligation to tell my two-and-a-half-year-old daughter, Chrisraine, about the boy that I was and the soldier that I became should I not make it back home to tell her in person. This book chronicles my childhood beginning with my first indelible memory at age four, describing the people, places, and events that molded me into the man and soldier that I became until my son, Christophe, turned four years old. Valley of the Shadow was an easy choice as the title for me because of the biblical and literal connection to me as I experienced combat and lived in a space and time defined by death and the will to overcome that fear. That shadow was ever present, and I fought hard and willed myself not to be engulfed by it. I was much more to my family than a soldier, and I wanted my daughter to know the boy that I was and what made me into the soldier that I became. This journey was filled with periods of joy and great happiness as well as uncertainty and sadness as a boy and much the same as a soldier. I excelled at the things that I applied myself to but was always challenged to perform in order to continue receiving the pleasures of everyday life or to survive a day in combat. So both my childhood and my profession were valleys oftentimes reflecting low points and high points with a sense of duty to survive and overcome the day at hand.

Rocky Mountain High Oct 22 2021 After six years of overseas duty for Diplomatic Security, Sam Tanner was tired of chasing South American terrorist and keeping dignitaries from being assassinated. His transfer to the Bureau of Alcohol, Tobacco, Firearms and Explosives immediately dropped him knee deep into the violent underworld of the American gun and drug culture. A routine government form and the arrest of a bright but recidivist gun and drug dealer by local authorities led him into an undercover role in Colorado Springs where he and his fellow agents uncovered one of the West's largest meth and gun operations flourishing under the control of a tough female veteran of the Mexican drug wars.

**The Power of Resilience** Sep 08 2020 How the best companies prepare for and manage modern vulnerabilities—from cybersecurity risks to climate change: new tools, processes and organizations for developing corporate resilience. A catastrophic earthquake is followed by a tsunami that inundates the coastline, and around the globe manufacturing comes to a standstill. State-of-the-art passenger jets are grounded because of a malfunctioning part. A strike halts shipments through a major port. A new digital device decimates the sales of other brands and sends established firms to the brink of bankruptcy. The interconnectedness of the global economy today means that unexpected events in one corner of the globe can ripple through the world's supply chain and affect customers everywhere. In this book, Yossi Sheffi shows why modern vulnerabilities call for innovative processes and tools for creating and embedding corporate resilience and risk management. Sheffi offers fascinating case studies that illustrate how companies have prepared for, coped with, and come out stronger following disruption—from the actions of Intel after the 2011 Japanese tsunami to the disruption in the “money supply chain” caused by the 2008 financial crisis. Sheffi, author of the widely read *The Resilient Enterprise*, focuses here on deep tier risks as well as corporate responsibility, cybersecurity, long-term disruptions, business continuity planning, emergency operations centers, detection, and systemic disruptions. Supply chain risk management, Sheffi shows, is a balancing act between taking on the risks involved in new products, new markets, and new processes—all crucial for growth—and the resilience created by advanced risk management.

Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
