Mumbai is often referred to as the city of dreams for all Indians but the issue of dilapidated buildings haunts Mumbai. There are more than 16,000 buildings in Mumbai which are in dilapidated condition and need repair or reconstruction. About 8 lakh people stay in such buildings. 300 people have died since 2013 due to building collapses and more than 3,945 accidents have happened in last 6 years. Redevelopment and Self-Redevelopment are the only viable options for the owners, occupants and tenants of such buildings. There are around 4.8 Lakh housing units valued at Rupees 4.48 Lakh Crores stalled in Top Seven Cities as per Government of India. Majority of these projects are from MMR and NCR regions which account for 77% of these stalled projects. As of December 2021, MMR alone had about 1.34 Lakh housing units valued at Rupees 1.91 Lakh Crores stuck. Reviving these stalled projects is extremely important for all real estate stakeholders namely Customer, Financial Institution, more than 300 Ancillary Industries and Government. Initiatives like Special Window for Stalled Housing Projects and Stressed Asset funds like SWAMIH by SBICAP Ventures are steps in right direction. This book is focused on work, occupation and career development: themes that are fundamental to a

wide range of human activities and relevant across all cultures. Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous. An examination of the literature pertaining to career development, counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies, some of the largest workforces in the world are in the developing world. Career guidance is rapidly emerging as a strongly felt need in these contexts. If more relevant models are to be developed, frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development. This does not mean that existing ideas are to be discarded. Instead, an integrative approach that blends universal principles with particular needs could offer a framework for theorizing, research and practice that has wider relevance. The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues. This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling. Healing a Broken Promise by Dr. Daksha Patel and Dr. Ashok Patel In November 2015, Drs. Ashok and Daksha

Patel celebrated a number of milestones: fifty years of residency in the U.S., fifty years of marriage, and fifty years of practicing medicine. *Healing a Broken Promise* follows their fifty year journey in the United States, which included raising two children while juggling demanding careers. The couple promised their families and communities that they would eventually return to India. However, fifty years later, their journey failed to take them back home. Their story details their triumphs and tribulations in a foreign land, the passage of life, and their regrets of not fulfilling a pledge. This book is written to give an overall idea of dynastic politics in India, keeping in mind that a citizen of India should know more about the politicians who are in the government and form policies and so on to take the country in the proper direction. Even if there are two related members, it is considered as dynasty and is included in this book. Wherever possible, family trees, as well as the assets of our politicians, are shown. It was natural to start with the Nehru Gandhi family, being one of the largest and longest-ruling families at the helm of all affairs. Then state wise, the families are chosen and the account is presented. As the content is extensive, the book is published in two volumes. States are chosen alphabetically. So even if Nehru Gandhi family is in Volume 1, Tamilnadu, Telangana, Uttar Pradesh are in Volume 2. Early rulers in Indian history used to hand over the throne to their sons and then to the next generations for generations till some significant event upset the process, mostly conspiracies by persons like very close aides of the king or a revolt. Similar lines were followed even during our democracy, passing on the rule to the next generation, which gave rise to dynastic rule. Indian politics has witnessed a large spectrum of politicians from various fields. Initially, it consisted mainly of leaders from the field of law. Now, we find that we have eminent personalities from sports fields, actors, actresses, superstars from the silver screen. The literary field is no exception; we have writers, poets, and so on. Economists find a special place in the political arena. Politics does not shun even criminals or a few dacoits who then turned to politics after surrendering. Businessmen, kings or princes from princely states, as the British decided to call them, are also found here. We have learned people in politics as also the illiterate people (angutha chhaap) who learned to sign only after assuming the office on being elected. People are interested in knowing the assets of politicians. This point is covered by using the asset declaration given by the politicians at the time of the election. SGN.The Ebook Maharashtra B.Ed.-CET (2Years) Covers All Sections Of The Exam. A pathbreaking study of the critical role women's institutions play in global higher education. Educating girls and women is a powerful route to improving societies worldwide. When women receive more education, literacy rates in children rise, maternal and infant death rates drop, and women enjoy an increased earning capacity. Yet in parts of the developing world, women's education is considered a low priority at best and a dangerous countercultural activity at worst. In Europe and North America, the number of women's colleges is shrinking—yet women-only institutions are growing in size and number in many other regions of the world, where they provide access to female students who are prevented for legal, cultural, religious, or practical reasons from attending coeducational universities. *Women's Colleges and Universities in a Global Context* is the first book to provide a comprehensive comparative analysis of the increasing significance of single-sex higher education institutions for women around the world. Based on Kristen A. Renn's on-site study of thirteen women's colleges and universities in ten different countries—Australia, Canada, China, India, Italy, Japan, Kenya, South Korea, the United Arab Emirates, and the United Kingdom—this timely and provocative volume combines interviews of campus leaders, faculty, and students with extensive online and archival research. Renn provides an overview of each country's political, economic, and educational situation, then explores the theoretical and practical themes she uncovers in their educational institutions for women. In the end, this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that would benefit higher education worldwide. Magic was not just a word, but it was a world for Aarav. An illusion bigger than his life. His dad, Mr. Sen was not confident about his magic but his mother had faith in him. Being confused in his dad's restrictions and mom's support, Aarav inculcated something unique in his behaviour. Consecutive obstacles made Aarav feel dejected in real life. Gradually, he created his own space in his imagination where he met his love, Zara, who loved and supported him immensely. His imagination was overwhelming, but that affected his real life. What made him to go to a parallel world, beyond the reality of his existence? What made him dream so much that it never reminded him to draw a line between dream and reality? Was his life real or just an illusion? *The Third Revised And Enlarged Edition Of The Directory Of Libraries In India* Contains Much Larger Number Of Addresses Of Libraries In India.
