There are various potty chairs that may be purchased when you start potty training your kid. However, all of them are very different and also have cool features too. It could be hard to determine which one to buy and which one is best for your son or daughter. Your kids have to be capable of getting to the toilet easily and also go directly to the toilet easily. The simpler it is to allow them to go directly to the toilet, the much more likely they'll want to use the toilet. Additionally, it is fun to use the toilet because they have a toilet seat that they like to go to, such as a musical one or one with common characters on it, and this will motivate them as well to use the toilet. You can look over here to see the actual differences between all of them to make choosing one so easy, after a much better potential for choosing the one your child prefers. Beautiful Ida Chagall, the only daughter of Marc Chagall, is blossoming in the Paris art world beyond her father's controlling gaze. But her newfound independence is short-lived. In Nazi-occupied Paris, Chagall's status as a Jewish artist has made them all targets, yet his devotion to his art blinds him to their danger. "This book will detail the basics of making chair seats, from weaving with cloth tape, rush, or cane to simple upholstery with cloth or leather. Also covers chair repair"-- This directory is a guide to country participation in the various committees and working groups of the OECD, the IEA, and the NEA for the year 2006. Offering 67 examples of intriguing chairs, this book features chairs by famous names, such as the Campana brothers, Tom Dixon and Marcel Wanders, as well as by lesser-known designers. In addition to large-format images of the completed designs, it includes drawings, prototypes, and photographs of manufacturing processes. Debut novel by the television explorer' and ex-Monty Python member. Assistant postmaster Martin Wells is obsessed with Ernest Hemingway, prizing a chair his hero once sat in. Irritated by the newly-appointed postmaster Martin plots his revenge. "Chairs: 20th-Century Classics" features more than 95 of the most desirable, influential and iconic designs from the last century. Part of a series featuring Collectables and Lighting, this book is beautifully illustrated and provides key information to the reader, whether he or she be a collector or just someone with an interest in design and interiors. Organized by decade each entry comprises: a double-page spread, featuring a short essay on the classic under discussion and a photograph of that object; top tips on what to look out for when considering a purchase; a price guide in UK sterling and US dollars; and, essential websites for further information. "Chairs" will provide all the information you need to make an informed decision when investing in a piece of classic design, whether it be an original Arne Jacobsen Ant, a Harry Bertoia sculpted Bird Lounge Chair, Alvar Aalto's superbly constructed 41 Paimio or an iconic Eames piece such as La Chaise. This gorgeous book is essential for anyone interested in industrial design, interiors or 20th-century furniture. "Clement Meadmore brings together more than thirty 'classic' modern chairs which are still in production, describing each in detail with the aid of photographs and his own explanatory drawings and some original designers' drawings, and examines the ways in which the designers approached and solved the functional and aesthetic problems involved in the design of each chair. The plans and elevations of the chairs are shown at a constant scale of one eighth full size, so that the dimensions can be easily ascertained and visual comparisons of size and proportion made"--Back cover. A visual history of the world's most famous and ubiquitous chair The Monobloc is the bestselling piece of furniture of all time: an estimated one billion copies of this white plastic chair are in circulation all over the world. This book arises from a documentary by German film director Hauke Wendler, who spent eight years filming on five continents to explore the impact of the Monobloc on a global scale. Combining archival documentation with images from Wendler's film (to be released in 2022), this book complicates the narrative and mystery of the Monobloc's popularity. Embracing its ubiquity, it also addresses the chair's environmental, economic and aesthetic impacts. How does the Monobloc threaten our environment and good taste? Finally, how has it become indispensable to millions of people for whom a chair is a chair and nothing more? This book offers insight, through film, photography and design history, into the story of how an unremarkable, stackable chair conquered the world. Winner of the Amnesty CILIP Honour Award Poor Mouse! A bear has settled in his favourite chair and it just isn't big enough for two. Mouse tries all kinds of tactics to move the pesky Bear but nothing works and poor Mouse gives up. Once Mouse has eventually gone, Bear gets up and walks home. But wait - is that a Mouse in Bear's house?! From the Caldecott Medal-winning author of The Snowy Day, Ezra Jack Keats, Peter's Chair is a picture book classic about a sibling rivalry. Peter, the hero of many of Ezra Jack Keats' award-winning books, has a new baby sister. When she arrives, his parents paint his old baby furniture pink for the new baby. There's only one thing they haven't painted yet, though: his little blue chair. He'll do whatever it takes to save it—even run away! This is a gentle and reassuring story about sibling rivalry and a perfect gift for any family expecting a new baby. A study of the chair in the DESIGN ICONS series, which focuses on forty different twentieth century designs for chairs. This book addresses the unique challenges faced by secondary Church leaders, offering practical advice on fulfilling and successful service. Church leaders who hold second chair positions are under tremendous pressure. They are expected to do their jobs and provide leadership while deferring to the top leader's decisions and preferences. It's a constant balancing act where the challenges often go unrecognized. Leading from the Second Chair offers an invaluable resource to leaders who serve in second (and third or fourth) chair roles, enabling them to become more productive, proactive, and fulfilled. Mike Bonem and Roger Patterson share their own and others' experiences of failure and success in these vital roles. They offer support and practical advice for reshaping the way second chair leaders can serve well and improve the overall performance of their church or organization. Leading from the Second Chair equips readers with the positive attitudes, skills, and strategies needed to become powerful leaders who will survive and thrive in God's service. Two English children undergo hair-raising adventures as they go on a search and rescue mission for the missing Prince Rilian, who is held captive in the underground kingdom of the Emerald Witch. Constructed in 1297?1300 for King Edward I, the Coronation Chair ranks amongst the most remarkable and precious treasures to have survived from the Middle Ages. It incorporated in its seat a block of sandstone, which the king seized at Scone, following his victory over the Scots in 1296. For centuries, Scottish kings had been inaugurated on this symbolic 'Stone of Scone', to which a copious mythology had also become attached. Edward I presented the Chair, as a holy relic, to the Shrine of St Edward the Confessor in Westminster Abbey, and most English monarchs since the fourteenth century have been crowned in it, the last being HM Queen Elizabeth II, in 1953. The Chair and the Stone have had eventful histories: in addition to physical alterations, they suffered abuse in the eighteenth century, suffragettes attached a bomb to them in 1914, they were hidden underground during the Second World War, and both were damaged by the gang that sacrilegiously broke into Westminster Abbey and stole the Stone in 1950. It was recovered and restored to the Chair, but since 1996 the Stone has been exhibited on loan in Edinburgh Castle. Now somewhat battered through age, the Chair was once highly ornate, being embellished with gilding, painting and coloured glass. Yet, despite its profound historical significance, until now it has never been the subject of detailed archaeological recording. Moreover, the remaining fragile decoration was in need of urgent conservation, which was carried out in 2010?12, accompanied by the first holistic study of the Chair and Stone. In 2013 the Chair was redisplayed to

celebrate the Diamond Jubilee of the Coronation of HM The Queen. The latest investigations have revealed and documented the complex history of the Chair: it has been modified on several occasions, and the Stone has been reshaped and much altered since it left Scone. This volume assembles, for the first time, the complementary evidence derived from history, archaeology and conservation, and presents a factual account of the Coronation Chair and the Stone of Scone, not as separate artefacts, but as the entity that they have been for seven centuries. Their combined significance to the British Monarchy and State – and to the history and archaeology of the English and Scottish nations – is greater than the sum of their parts. Also published here for the first time is the second Coronation Chair, made for Queen Mary II in 1689. Finally, accounts are given of the various full-size replica chairs in Britain and Canada, along with a selection of the many models in metal and ceramic which have been made during the last two centuries. *Bondagers*, a story of women workers on the great Borders farms in the last century, is a play about land and the misuse of land. Mollie and Peter are home for the holidays and they long to see their pixie friend Chinky and their magic Wishing-Chair. Together they have wonderful adventures, but what happens when the Wishing-Chair is stolen and then gets its wings cut off by the naughty Slipperies? "Department chairs who have asked themselves the question 'Who knows where the time goes' should ask Christian Hansen for the answer. His book, *Time Management for Department Chairs*, will help chairs maximize the investment of their most important resources—their time, focus, and energy."—Don Chu, author, *The Department Chair Primer* "Department chairs take note: Hansen's *Time Management for Department Chairs* can change your life in just three hours. Written by a seasoned academic chair, the author offers practical ideas and strategic advice about how to increase your day-to-day effectiveness (and sanity) by using proven approaches to managing expectations, organizing tasks, running meetings, monitoring communication, controlling calendars, avoiding interruptions, containing crises, and everything else in between. If you want to learn how to strike a better work-life balance, this book should be at the top of your reading list!"—Christine Licata, senior associate provost, Rochester Institute of Technology "It's about time—the resource department chairs have the least of and what faculty want the most! Christian Hansen's book is filled with insights, techniques, and artful strategies to help chairs maximize their time while working effectively with faculty and balancing their personal and professional lives. This book is a life saver!"—Walter Gmelch, dean, University of San Francisco This work provides an insight into the history of Welsh stick chairs and includes instructions on how to make a chair, covering methods of bending the wood for chair construction. Illustrations show each stage in the building process. Chairing can be extremely challenging and, until now, there is little in the way of training and guidance available. Even good chairs want to get better at chairing and leading change. Speeches and models are of limited use - what works is shared experience, the opportunity to be able to learn from others. This book is by chairs for chairs, and tells it the way it is, covering topics you won't find addressed anywhere else, such as: what to get right before you accept; what to do if you think you might have been appointed partly because you are a minority; how to recruit, select and appoint the ideal board; how to manage the relationship between the Chair and the Chief Exec; how to achieve effective decision making; how to deal with an underperforming Chief Exec; what to do before every board meeting; and what never to do (ever). *How to be a Better Chair* - and its associated website - delivers fast learning from the distilled wisdom of experienced chairs, in a portable and easily absorbed format. It provides guidance on being a better chair and by making the skills of chairing less daunting, will help attract and develop new candidates from a broader cross-section of society, who are able to chair more diverse boards (this is a big challenge). Authoritative yet readable, *How to be a Better Chair* brings together the experiences, tips and thoughts of a broad cross-section of both public and voluntary body chairs, many of whom also have senior corporate experience, from John Gardiner, Chairman of Tesco Stores Ltd to Bill Kilgallon, Chair of the Health and Safety Commission. There was a time when birth was treated as a natural process rather than a medical condition. Before 1800, women gave birth seated in birth chairs or on stools and were helped along by midwives. Then societal changes in attitudes toward women and the practice of medicine made birthing a province of the male-dominated medical profession. In *Birth Chairs, Midwives, and Medicine*, Amanda Carson Banks examines the history of the birth chair and tells how this birthing device changed over time. Through photographs, artists' renditions of births, interviews, and texts from midwives and early obstetricians, she creates an evolutionary picture of birthing practices and highlights the radical redefinition of birth that has occurred in the last two centuries. During the 1800s the change from a natural philosophy of birth to a medical one was partly a result of heightened understandings of anatomy and physiology. The medical profession was growing, and with it grew the awareness of the economic rewards of making delivery a specialized practice. In the background of the medical profession's rise was the prevailing perception of women as fragile invalids. Gradually, midwives and birth chairs were relegated to rural and isolated settings. The popularity of birth chairs has seen a revival in the late twentieth century as the struggle between medical obstetrics and the alternative birth movement has grown. As Banks shows through her careful examination of the chairs themselves, these questions have been answered and reconsidered many times in human history. Using the artifacts from the home and medical office, Banks traces sweeping societal changes in the philosophy of how to bring life into the world. Originally published in 1964, *The Englishman's Chair* is a history of English chairs, written as a continuous story from the 15th to the 20th Century and because of the revealing powers inherent in chair-making and design, it is also an unconventional footnote to English social history. The changes in taste, and fashion, the increase of skill, the introduction of new materials and the long battle between dignity and comfort are discussed, as is the impact that modern industrial designers have had on chair design. More than five hundred photographs, most in glorious color, highlight a fascinating look at the history of the chair, from its first appearance in early Egypt, through the various forms of seating used in cultures around the world in different eras, to the classic designs of the present day. Ostap Bender is an unemployed con artist living by his wits in postrevolutionary Soviet Russia. He joins forces with Ippolit Matveyevich Vorobyandinov, a former nobleman who has returned to his hometown to find a cache of missing jewels which were hidden in some chairs that have been appropriated by the Soviet authorities. The search for the bejeweled chairs takes these unlikely heroes from the provinces to Moscow to the wilds of Soviet Georgia and the Trans-caucasus mountains; on their quest they encounter a wide variety of characters: from opportunistic Soviet bureaucrats to aging survivors of the prerevolutionary propertied classes, each one more selfish, venal, and ineffective than the one before. Sibling rivalry, externalising anxiety. Many objects are beautiful; and many creations are functional. But only few achieve enduring status. The "Design Classics" series presents such select products that have set standards in form, function and brand communication. Each monograph is a richly illustrated essay and product portrait, from conception to production, from prototype to collectors' item.
