“Introductions!” the man said with a kind smile. “I am King Enk, this is my kingdom - and you,” he added with a flash of his dark eyes, “you are the one we have been waiting for, Cole.” For as long as Cole can remember, he has always seemed very unimpressive next to his brother and sister. However, when a trip to his grandma’s ancient house turns into the adventure of a lifetime, he is given a choice which makes him question everything that he thought he wanted. Hurlled into a strange place where even

stranger creatures dwell and fierce powers are at play, Cole must find out where his own talents lie and put them to good use before time runs out. Follow Cole through the mousehole into Deriuss: a land where all you need is a little belief in yourself to unlock a world of magic. From the Boston Globe-Horn Book Award-winning author of *Cartwheeling in Thunderstorms*

comes an exciting new novel about a group of kids who must survive in the Amazon after their plane crashes. 5 1/2 x 8 5/16. We want all children to love reading, and *Which Book and Why* demonstrates how effective guided reading for children in Foundation Stage and Key Stage 1 can help teachers make this happen. Balancing theory and practice, this book explores how schools and teachers can implement guided reading more confidently and more effectively. *Which Book and Why* draws together the teaching pedagogy underpinning guided reading. The book demonstrates how to develop

word-reading skills, reading for meaning, and reading for information. Building on the success and strong foundations of Book Bands for Guided Reading (Baker, Bickler and Bodman, 2007), Which Book and Why: • supports the effective delivery of guided reading for young children in the early stages of learning to read; • helps teachers to choose the right book at the right time, based on focused assessments; • explains how guided reading fits with current theoretical understanding of how children learn; • demonstrates how guided reading works in practice; •

outlines how practice may vary, depending on the choice of text, teaching objectives, and the needs of the child; • provides guidance for school subject leaders and senior managers, and for teachers' self-study. Which Book and Why includes in the accompanying CD-ROM a fully searchable database to support schools and teachers in choosing the most appropriate books at the right level for each group in a class. The database includes a full listing of colour-banded titles, including those from recently published series, allowing teachers to use their existing libraries more

effectively while also informing decision-making about new resources. In parallel, teachers can search the database for texts that will complement the teaching progression of mainstream phonic programmes, review programmes that are available, and search for a text to consolidate teaching of particular phonemes. Which Book and Why offers professional development resources in each section; self-study activities for teachers - including student teachers, newly qualified teachers, and staff new to guided reading; resources for literacy subject

coordinators; and resources for senior management and leadership teams to support the implementation of high-quality and effective guided reading lessons. All the latest research on fluency plus dozens of practical lessons and ready-to-use fluency-priming tools, including partner poems, word ladders, and more! In a northern English town, Lizzie, despite her own grief over the death of her mother, tries to distract her grief-stricken father by helping him enter and prepare for the Great Human Bird Competition. Much has been written on the topic of guided reading over the last twenty years,

but no other leaders in literacy education have championed the topic with such depth and breadth as Irene Fountas and Gay Su Pinnell. In the highly anticipated second edition of *Guided Reading*, Fountas and Pinnell remind you of guided reading's critical value within a comprehensive literacy system, and the reflective, responsive teaching required to realize its full potential. Now with *Guided Reading, Second Edition*, (re)discover the essential elements of guided reading through: a wider and more comprehensive look at its place within a coherent literacy system a refined

and deeper understanding of its complexity an examination of the steps in implementation—from observing and assessing literacy behaviors, to grouping in a thoughtful and dynamic way, to analyzing texts, to teaching the lesson the teaching for systems of strategic actions a rich text base that can support and extend student learning the re-emerging role of shared reading as a way to lead guided and independent reading forward the development of managed independent learning across the grades an in-depth exploration of responsive teaching the role of

Also check out our new on-demand mini-course: *Introducing Texts Effectively in Guided Reading Lessons* The 'dip in literacy achievement' experienced by some children at

age 7-8 may in part be due to a steep rise in text reading challenge that children encounter at this age. Intended for K-3 classroom teachers, explains how to create a balanced literacy program based on guided reading and supported by reading aloud, shared reading, interactive writing, and other approaches. A book that brings the habits of reading to life Great readers are not made by genetics or destiny but by the habits they build—habits that are intentionally built by their teachers. The early formal years of education

are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers, not close it. Today, the Common Core further increases the pressure to reach high levels of rigor. What can be done? This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies

for teaching reading to all students, no matter what level Includes more than 40 video examples from real classrooms Written by Paul Bambrick-Santoyo, bestselling author of *Driven by Data* and *Leverage Leadership* Great Habits, Great Readers puts the focus on: learning habits, reading habits, guided reading, and independent reading. How can teachers foster good reading in pupils aged 7 - 11? This book explains the way to do it. \* What is this book about? Reading comprehension is so much more than just reading words, and this book explains how to develop all aspects

of it for pupils aged 7-11. Written by top experts in the field, it includes eleven in-depth case studies - taken from real-life classrooms - of lessons on fiction and non-fiction, poetry and picture books, advertising and film. \* Why is it needed? Guided reading, widely used in English lessons, has never been satisfactorily examined for children in this age range. Once they have learned how to read, pupils need support to develop strategies to extend their comprehension: What does the text say? What does it mean? What do I feel about it? \* What is special about guiding readers? We can

guide readers whenever we open discussions by exploring their understanding rather than telling them. This book shows teachers how it can be done with real classroom examples. \* Who is it for? All teachers of children aged 7-11, English subject leaders, literacy coordinators, student teachers, teacher-educators, librarians, tutors, reading specialists. From his window, he feels like he can see the whole world stretching out beneath him. His mum doesn't really like looking outside but it's going outside that she hates.
